  completed in 2020

About Me

Current student looking to join the workforce to gain real-world experience. Ability to complete tasks on time in both individual and team settings. Dependable and reliable , ready to learn and grow with your council

Projects

Research Paper Summarizer

With an ever-increasing number of papers being published in various fields, researchers, students, and professionals often struggle to keep up with the flood of information. This project aims to offer an innovative solution by creating a Research Paper Summarizer, an advanced automated tool that leverages cutting-edge natural language processing (NLP) and machine learning techniques.

MULTILINGUAL TRANSLATOR

We propose the development of a Multilingual Translator GUI project using Python. This project aims to create a user-friendly interface that facilitates seamless translation between multiple languages, empowering users to bridge linguistic gaps effortlessly.

Volunteering

Rotract Club of Fr. CRCE (Sole Run 2023)
